

What is Buildingrating.org?

A project of the Institute for Market Transformation and the Natural Resources Defense Council, Buildingrating.org is an online, global library of resources pertaining to energy performance rating and disclosure of homes and commercial buildings. This website is scheduled to be launched in the fall of 2010.

The site will house a searchable database of reports, legislation, technical information, policy analysis and other research on rating and disclosure. It will include an interactive world map as well as advanced search capabilities. We envision Buildingrating.org as an educational resource and a global best-practices network for policymakers, researchers, advocates, real estate stakeholders and the public. The website will also feature news and blog sections, with guest commentary from local and global experts on building energy efficiency and energy policy.

Get Involved with Buildingrating.org

We are looking for participants to contribute resources and editorial content, and to help beta-test the site. If any of this interests you, please contact **Caroline Keicher** at IMT (caroline@imt.org or 202-525-7005).

The Institute for Market Transformation (IMT) is a Washington, DC-based nonprofit organization promoting energy efficiency, green building and environmental protection in the United States and abroad. IMT's work addresses market failures that inhibit investment in energy efficiency and sustainability in the building sector. www.imt.org.

The Natural Resources Defense Council (NRDC) is the nation's most effective environmental action group, combining the grassroots power of 1.3 million members and online activists with the courtroom clout and expertise of more than 350 lawyers, scientists and other professionals. www.nrdc.org.
